The Senate and House Considering Measures to Use It.

Morrison Wants to Redeem Government Bonds and Don Cameron Anxious to Re- vive American Shipping—A Bill to Repeal Laws for Employing Election Supervisors and Marshals—A Resolution to Simplify the Inauguration Ceremonies.

By Telegraph to the Post-Dispatch.

WASHINGTON, D. C., December 4.—Congressman O'Neill of Missouri has arrived, and is being interviewed on the tariff question, favors taking it up at once. He desires to have the duties taken off of raw materials. "The manufacturers," he says, "cannot enter fairly into competition with those of other countries when handicapped with excessive duties on raw materials. The cost of the production determines not only the price of the goods, but the wages of the skilled labor." He is opposed to having the wages of the skilled labor increased, and to paying the wages of the unskilled labor. He desires to pay the wages of the unskilled labor of Texas and Ohio, which, besides increasing the cost of clothing, blankets, etc., more than 20 per cent, also penalizes the manufacturers who only export 1 per cent of the product of a wood clip of over 400,000 pounds last year. Mr. O'Neill repeated a conversation held with one of the largest manufacturers of woollens in the United States whose shops are in Philadelphia, in which he told

THE ABOLITION OF THE DUTY

would treble manufacturers by giving them a foreign market. Mr. Cunningham, the enterprise glass manufacturer, favors the bill to redeem the bonds.

Mr. Morrison—Relative to the surplus revenue

of the Senate and House, he said that the

Senate and House are considering measures to

use it. The House is considering a bill to

repeal the laws for employing election super-

visors and marshals.

Mr. Morrison—A resolution to simplify

the inauguration ceremonies.

The House resumed the consideration of the in-

terstate commerce bill.

emergency, if any, existed to justify such action.

Mr. Morrison—A resolution calling on the President for any correspondence in the possession of any of the government departments in regard to the present condition of the men in the service of the United States. Mr. Taylor of Ohio to prohibit the removal of any honorably discharged soldier, sailor or marine, or any who has been honorably discharged from any office in the civil service of the United States, except for specified cause.

Mr. Hopkins—To establish the office of Gov-

ernor of the District of Columbia.

Mr. Hopkins (of N. Y.)—A resolution calling for further information in regard to the imprisonment of American citizens in Great Britain.

Mr. Dunham—To admit free of duty articles intended for exhibition at the World's Exposition to be held in the City of Chicago in 1885.

The House resumed the consideration of the in-

terstate commerce bill.

CONFIRMED.

The Report That Miss Mackay is to Marry Prince Colona.

By Telegraph to the Post-Dispatch.

NEW YORK, December 4.—Information is received here to-day fully confirming the report that Miss Eva Mackay is to marry Prince Colona of Italy.

TERMINATED TO-DAY.

The Convention of Fair and Exposition Managers Comes to a Close.

Excellent Papers Read—Practical Suggestions of Great Value—Election of Officers.

The afternoon session of the convention of the International Association of Fairs and Expositions yesterday resulted in the report of the committee on the World's Fair in St. Louis in 1892, which favored the scheme, being adopted. The receipts from fees were shown to be \$300, and the expenditures \$157, the balance being \$23. Mr. W. W. Withnell of St. Louis read a paper on the management of fair finances.

Committees were appointed to act on the suggestion of establishing a permanent international association of fairs and of paying expenses of a fair before the premiums when rain interfered.

TORONTO, ONT., December 4.—A special from Quebec to the Globe says it is understood that the memorial presented to Governor Masson, making certain grave charges against members of the provincial cabinet, was addressed to the ministers, Secretary Blanquet and Treasurer Robertson. Secretary Blanquet is accused of having sold his office to a woman, and is either a very good actress or a woman who has had a very exciting appearance.

Mr. Clarke is a woman about 35 years old, dark, pretty, but respectable. She is pale, and is said to be a woman of means. She is either a very good actress or a woman who has had a very exciting appearance.

"I will do my best to learn something about the practical workings of the scheme."

"These will have to be worked out. The general idea is that we will be a good one, and I wrote the communication to the Post-Dispatch believing that whatever method is employed will be under the Commissioner's direction, and employed in it paid out of the Relief Society's fund and on such persons as those societies would designate."

"What do you think the result would be from a general arrangement?"

"Most beneficial. The city needs just such a cleaning as it would afford. Mr. Specht's scheme made a great mistake last year in not passing that appropriation for the same purpose."

"The world should be the same. It is better to do it now than to let it go on, as far as it would, would be more harm than good."

"I did not like the idea, but from a charitable as well as a sanitary standpoint was admirable."

"The Very Remarkable Story Told by the Wife of the Alleged Safecollectors—Leader—Bad Treatment and Profanity—Prosecutions to Follow—What the Police Say.

There is another side to the story, told in the morning paper, of the five pieces of detection work done in capturing three letters from Charles Clarke, the alleged head of the safe-blowing gang to his wife, which Mrs. Clarke to-day told to a Post-Dispatch reporter.

THURSDAY, DECEMBER 4, 1884.

The "best citizens" of St. Louis are again to the front—opposing street reconstruction.

We are sorry to note evidences that the street obstructors are getting the upper hand of the street reconstructionists.

St. Louis wants good streets and clean streets, and members of the Municipal Assembly will please not get in the way.

If CLEVELAND refuses railroad passes as well as pugs and other presents, he will set a much-needed example for well-paid officials.

From the reports of the morning papers we learn that Mr. NORTON is to appear at a benefit performance to be given to the Knights of St. Patrick.

MR. SPEECH's idea of combining philanthropy with street cleaning takes at once. It realizes the old saying about cleanliness being next to godliness.

CLARA MORRIS, NORTON, Mrs. NORTON, POPE and the other attractions announced for the Norton benefit now sink into insignificance. The Knights of St. Patrick are to appear on the stage.

Some of our Democratic politicians are going to be disappointed, but none of them are going to do as badly as Mr. FILLEY, who aspired to the Cabinet and was bounced from the City Committee.

"OMAHA CHARLEY," a murderer whom Governor CRITTENDEN recently pardoned out of the penitentiary, fatally shot another man in Maryville yesterday. This may give Gov. C. another chance to pardon him.

THUS far Governor CRITTENDEN has been reported as applying for the Secretarship of the Interior, for the Governorship of Utah and for a District Judgeship. If there is anything else that he wants let us hope that he will mention it.

The labor organizations are opposing the confirmation of BEN BUTTERWORTH's political henchman as Chief of the Labor Bureau. A busy ward politician and industrious spokesman certainly is a workingman, but not the kind of one they want to look out for their interests.

SOME of FILLEY's St. Louis strikers who went to Cincinnati to be commissioned as election marshals and to flourish bulldog stances in the face of Ohio voters, are to have a chance to do the State some more service. They are to be summoned to Washington as witnesses.

BLAINE has reached Washington fresh from a swell dinner at the house of his millionaire friend, D. O. MILLS. The announcement that he is to be screened for another speech indicate the purpose of his friends to keep him before the public as the boss of the Republican party.

WHAT does our Municipal Assembly mean by refusing to correct the illegality of the ordinance exempting Pine street from heavy traffic? The asphalt was paid for under a contract that this should be done, and the city disdains itself by refusing to keep its part of the contract.

CRITTENDEN and O'DAY are hunting CLEVELAND hot-footed. The service they have rendered JAY GOULD in Missouri is probably worth more than they have been paid for it. But it is not generally believed that CRITTENDEN is under any obligation to pay off Mr. GOULD's political debts.

THE Senate's Indian Affairs Committee, to which VEST's Indian land resolution was referred, is famous for its skill and success in avoiding unpleasant discoveries. As the pending case, it is notorious that Senators got "some of the pork," and a very cruel or pernicious investigation is not to be expected.

ONE article of Republican orthodoxy is that it is not safe to intrust the business interests of the country to Democracy. Two items of this morning's news are that the city of Key West is in danger of being wiped out of existence and that the great St. Louis sugar refinery, which refines all the sugar of Louisiana, is in danger of bankruptcy—all through a treaty proposed by Republican influences.

BEFORE the people of the United States are called on to pension GRANT they should know exactly what they are doing. Providing for an ex-president is one thing and paying the debts of the swindling GRANT and WARD firm is quite another thing. There is an impression that certain trustees hold a quarter of a million of the Wabash consolidated bonds for GRANT, and if this fund is not available a clear explanation should be made.

To most people it will not seem obvious that the exclusion of Irish goods from American markets is the most practical way of showing love and sympathy for Ireland, avenging her

wrongs, or aiding her starving laborers. But such is the theory of the Independent Irish-Americans of New York, who have just voted to continue their organization under the name of the Irish-American Protective Union, and adopted an address urging their fellow-countrymen everywhere to organize against any reduction of duties on British goods. In the recent campaign they voted for the party whose campaign cries for high tariff protection have ended in free trade recommendations from its President and Secretary of the Treasury. It is well for Ireland that the gulls snared by BLAINE and BUTLER and plucked by BURCHARD do not represent the Irish in America or anywhere else.

A ROBBERS' ROOST.

Some of the statements called for by the introduction of VEST's resolution in regard to leases of Indian lands must have burned the ears of those Senators and other politicians who have been running the Interior Department. DAWES said the Government was advertising for beef to feed starving tribes whose reservations had been leased to cattle men, and BECK said the agents were paying \$40 a head for cattle worth \$12. On some of the reservations which the Indians have been practically dispossessed, they had raised as high as 17,000 bushels of wheat a year, and with a little aid and guidance in stocking their own grazing lands would soon have become self-sustaining.

The course of Secretary TELLER toward the land-grabbers has been a little queer. He has acquitted himself in his reports by calling attention to the fencing of public lands and the leasing of reservations, and, while he refused to approve of either, he referred to the matter for no other purpose apparently but to advertise the fact that he was doing nothing, and believed the Department powerless to check the abuse. At the same time he gave notice that he had power, and would exercise it, to protect the leaseholders as against outsiders, though he would not formally give his consent to the contracts and thus make them binding on the Indians. In last year's report he approved the position which Senators DAWES, VEST, LOGAN and CAMERON had taken against the leasing of several million acres of the Crow reservation in Montana after they had visited it as a Senate Commission. They recommended the purchase and restoration of the land in question to the public domain, and he earnestly urged that course. But now a syndicate of big cattle companies from his State has everything fixed to secure a lease of those same lands from the Indians, and the people of Montana are excited over the syndicate's boast that it will have the aid of Secretary TELLER in securing and confirming the leases. They say they will not permit a tract of over three million acres to be locked up in that way, and that there will be bloodshed if any attempt is made to hold and use the lease.

Both the Interior Department and the laws it is supposed to administer must have a thorough overhauling, or the last section of our public domain will be gobbled up by land-grabbing corporations. Unless Congress and President CLEVELAND co-operate in vigorous and well-directed efforts to reform that branch of the public service, the worst cancer on the body politic, they may as well throw reform talk to the winds and all reform physic to the dogs.

HAVING recovered control of California and fixed things so as to send its man SARGENT back to the United States Senate, the Central Pacific road has recently discharged 1,500 of the employees whom it voted in the recent election.

First Blood for Honest Government  
From the Philadelphia Times.

One of the first visible fruits of Cleveland's election to the Presidency is the willingness and promptness of the long-indelible Pacific Railroad corporations to settle their large indebtedness to the Government. They have been the debtors of the Government to the extent of scores of millions. The debtors defamed Cleveland to get out of the election and have manipulated party leaders to control both the legislative and judicial departments of the Government.

THE course of Cleveland is not misunderstood by the men who have been plundering the Government on a gigantic scale. They hoped, labored and contributed freely for the defeat of Cleveland, but they are shrewd enough to know that they are beaten, and that defeat means honest settlement. They know that the honest administration of the Government on business principles means, and they propose to settle before the 4th of March.

One of the most important lessons of the late election is that it is possible to call for open books, scrutinizing accounts and having an independent audit of the departments of the Government, and the hitherto impudent and swindling Pacific railways pay the first nod to the new Administration by proposing to settle their unpaid millions without a quibble. First blood for Cleveland and honest government.

The Rich Rule Here.  
From the Boston Herald.

An income tax is perhaps the most equitable form of raising a government revenue that could be devised. If honestly carried out, it imposes the load of taxation upon the shoulders of those who can best afford to bear it. More than this, it brings home to each taxpayer a distinct appreciation of the advantages of legislative and administrative economy, advantages which are frequently lost sight of under an indirect system of taxation. It is certainly strange that in what is called an aristocratic government such as that of Great Britain, taxes are imposed upon wealth as such, while in a democratic republic, as in the United States, a distinction is made between wealth rather than poverty is looked upon as highly undesirable.

THE two forms of government, a stranger to the methods in use in either would certainly draw the conclusion that an income tax would be looked upon as desirable by the great mass of the people of the United States, while the wealthy controlling class in Great Britain would use their influence to prevent the adoption of any such form of assessment.

Speaks for Itself.  
From the Cincinnati Enquirer.

"Where are you going?" an Enquirer reporter asked the drummer for a Cincinnati iron-ore house yesterday, as he observed him making for the depot.

"I'm going South."

"That's the only section where we can sell iron now. Business in the North doesn't amount to much. We never had such a trade in the South before."

"How do you account for this?"

"One thing, and the main thing, is that the Southern people feel comfortable for the first time in twenty years. They seem to feel free of suspicion for the first time, and they want to show their hearty good-will and their anxiety for friendly business relations with the North by giving us their trade. I first returned from a most successful trip a few days ago, and have been ordered South again until the holidays."

Burns Corn in Nebraska.  
From the Chicago Herald.

Farmers in many parts of Nebraska are burning corn for fuel. They have figured the matter out to their own satisfaction and are confident that it is cheaper to burn corn than to sell it and buy coal. Soft coal is worth in that State about 22 cents a bushel and corn does not find a ready sale in the rural markets for more than 12 cents. Experiments have shown that two bushels of corn will produce more warmth than one bushel of coal, and farmers are thus burning the former and saving themselves the trouble of hauling it to market and drawing the coal home again.

Fine and Mike.  
From the Kansas City Journal.

Governor Crittenden and Lieutenant Governor Campbell are both in the East, looking after their prospects with the next administration. In the meantime, Poor Old Missouri must worry along with such government as "Chief Justice" McGrath and Private Secretary Fair to give him.

They Met by Chance.  
From the Kansas City Times.

Governor Thomas T. Crittenden and Lieutenant Governor Robert A. Campbell met by chance in the mind, and to fit them the advisers he called around him.

The Sun says: "It would be very strange if Broth-

er Washington last night, and discovered that Missouri was without a chief executive. The patents for the millions of acres fraudulently included in the survey of the Maxwell land grant have been conveyed to "innocent purchasers," and STEVE ELKINS smiles complacently at the fussy and futile demonstrations of the Department of Justice.

PRESIDENT CLEVELAND is reported as saying that he would like to ride up to the Capitol in a horse car, read his inaugural and quietly return to the White House. There is no reason why he should not do it, except the desire of small politicians to make themselves important by hitching on. President CLEVELAND might just as well begin at the beginning and put an end to the whole nonsense and humbugginess business that has grown up about the Presidential office.

WEAVER made his campaign in 1880 without money, without rich backers, without any place car or yacht to travel in, and without the support of the New York Sun or any other metropolitan journal. He had no dress suit, no *costumier*, no valet to attend him. Yet he received 308,000 votes, and bold, blustering BEN BUTLER, who boasted of his 1,700,000 followers in the Democratic convention, has polled but 120,912 votes in the recent election.

MISSOURI's Electors, after casting the vote, united in an autograph letter to CLEVELAND and another to HENDRICKS. By framing these documents for handy reference, the dispenser of Federal patronage during the next four years never need be at a loss for the name of some deserving Missourian who is willing to serve his country in an official capacity, if properly solicited and entreated.

WE are told the House is bound to pass an inter-State commerce bill this session, but not REAGAN's. The latter means business. It aims at something more than the creation of new salaried positions. Therefore it will have to give way to a committee bill that does not threaten to regulate anything but the income of certain commissioners hereafter to be appointed.

MINISTER LOWELL is now in danger of being indicted and tried for corruption in the sale of the Sandwich Island treaty; and while he may not be a scoundrel, he is not a bit of a statesman. He was badly left by his biographer, Froude, at all events.

MR. CLEVELAND and a party from Albany will occupy a box at the Actors' Fund benefit performance at the Grand Opera House in New York on Thursday.

AN English doctor says that a person who can hear his ears as well as he is a suspicious character and cannot be trusted. CHARLES SUMNER could do it, and so can a distinguished lawyer of Marshall, Mo.

ACCORDING to the Constitution of that city, "the jubilant and untried Democracy" of Atlanta, Ga., heartily welcomed Mr. Samuel J. Randall last week as their guest, and as the man who did more than any other to make Democratic victory possible in 1884."

A MOTION TO ADJOURN  
for one week was received with much pro-  
fanity and abuse from the Pohlman supporters  
and the reformers. The Pohlman men  
and about thirty scal-hunters, he had forced upon him  
the terrible ordeal of sitting as judge and  
defendant in a case where conviction meant  
capital punishment. He played his dual role so  
effectively that he narrowly escaped being made  
a victim. The reformers carried their point, but Pohlman  
still claims to be chairman of the regular committee.

The regular committee, however, had  
a close, secreted afternoon. In the other bodies
